

PROPOSED SOLUTION(BMC)

A Novel method for handwritten recognition system

Introduction

The [BMC Code of Conduct](#) (the "Code") provides guidance about business behavior expected of the BMC community as you work and interface with fellow employees, customers, suppliers, business partners and other stakeholders.

The Code is supported by corporate-level policies, which are available on BMC's Corporate Policy Site. You may also be subject to additional regional and/or departmental policies. However, this Code and the policies cannot answer every question or address every possible business situation.

Therefore, you are expected to use good judgment and seek guidance when you have questions about the appropriate course of action.

Scope and Compliance

The Code is applicable to all officers, directors, and employees of BMC Software (consisting of all global BMC entities; ("BMC"). The [Third-Party Code of Conduct](#) governs the conduct of contingent workers and business partners acting on BMC's behalf.
